

## Emergency Earthworks

**Sector:** Rail

**Client:** Catenary King / Network rail

Following storm Ciara and Dennis in Feb 2020, Readypower Terrawise was mobilised with 48 hours notice to plan and install a sheet piled wall to retain a railway embankment.

- Provision of all labour, RRV plant and piling plant
- Provision of POS planning and management
- Installation of 40 number, 9 metre sheet piles

### Construction Phase

The works were delivered during 1 weekend emergency possession utilising 3 RRVs, Movax SG and BSP DX hammers

All works were complete without incident allowing the passage of trains to recommence safely.
